### What aspects of the course were most effective? (Lectures, instruction, readings, papers, exams - list as many as needed and please explain why)

Presentations and Meyers Briggs activity group presentations were very effective!! I think the readings and topics that were very meaningful and helpful. Lecture, instruction, readings The dialogues and discussions in class enhanced my understanding of the topics the most. Presentations for classmates Lectures were the most effective and engaging Discussions

### Feel free to share any additional comments:

See you next semester! Paul is an outstanding higher education professional who puts his students at the center of his class. I like having an instructor not affiliated with the college because I was able to share things that I may not have shared with someone who worked at the college. He was a really great resource and provided alot of guidance. Paul Brown is a great professor. I wish we focused more on the info and not the site presentations
