### What aspects of the course were most effective? (Lectures, instruction, readings, papers, exams - list as many as needed and please explain why)

PowerPoints and interview prep I think the group discussion was the most beneficial Pauls personal advice and help Lectures and readings I felt the resume and cover letter building was the most effective aspect of this class. I really needed help restructuring my resume and cover letter so it was helpful to receive feedback on these documents. Journal entries and learning contracts The readings and discussions were most helpful The lectures complimented the assignments very well The papers were really effective. It really aligned with what we did. Lecture was also good. The branding, resume and cover letter lectures were my favorite. Discussing our fellowship experiences was most effective.

### Feel free to share any additional comments:

Thank you! loved having you as a professor! I thought the spring semester of this course was more meaningful. Some of the assignments would have been helpful I think the assignments could have been a little more limited for this semester for ex: I don't think we needed to do 4 journal entries one or two would have been fine
