**What aspects of the course were most effective? (Lectures, instruction, readings, papers, exams - list as many as needed and please explain why)**

Reading and instruction are most effective aspects for me.

Great

Flexible and insightful

I thought the Pechachka presentations were a new and creative way to wrap up the year!

The best part of this course was being able to create my own website. It has definitely helped me stand out among my peers when applying for jobs and has also helped me to reflect effectively on my experiences.

Building our own e-portfolio

Paul was very helpful in my fellowship process.

I thought the presentations at the end of the semester really helped me reflect on all that I've learned in my fellowship and course work this semester and I really enjoyed that creative part of it!

**Feel free to share any additional comments:**
